'CAN I FAIL' PROJECT JOURNEY

June Stats

Master Number

The Most Important Number on a Journey

(last month change: **-13%**)

A number is generated from various most important totals of this month. If a number is increasing monthly = growth. If not, then it's a stage of 'stuck'. Or even worse, going down the hill... It's as simple as that. No more 'lying' to one self, or walking through life in a blind!

Commentary

All details below are to share the entire journey. My aim is to make these updates as Visual as possible. Yet, to keep it simple too (bearing in mind that it's the entire life journey is tracked here... there sure are many details to look into!)

In summary:

The month of June was sort of disaster. Lots of confusion came in, which made me re-think the process of the entire journey. Decided to halt all social activity until get clearer. Looks like the campaign will need to be re-built from scratch. Just not happy with how I've been presenting things to the outside world.

The rest of June's journey is shared below. No Month in 10 Pictures section, as there is nothing, it feels, to show.

Thank you everyone who's here, to help keep wheels spinning.

Most Memorable Part(s)	3 Biggest Lessons Learned
Finally, found to follow a trading system. Feels right (at last) so far ---	Not easy to live Ideal Day Lifestyle on one's own. Lonely, tough, overwhelming. Too, added few more filters to learn - discipline is not as strong as always thought. Clarity = no more lie. ---
I am against Failure of Life realization ---	If no results within 6 weeks, motivation starts fade away ---
Special friend from UK arrived	Sports, proving again, helps to push through difficult times

Inspired Living by 7 Virtues

The Ideal Day Blueprint, which was designed around 7 Timeless Virtues of Enlightened Living, as guided in a book [The Monk Who Sold His Ferrari](#), by Robin Sharma.

Crafted for an extraordinary day, full packed with ingredients to lead into fulfilling lifestyle

Ideal Day Lifestyle, June

Last month change: **-16%**

with ingredients to lead into training lifestyle.

Totalling together, the 7 Virtues of Enlightening Living numbers tells me how close or far I'm to be experiencing the the Ideal Day Lifestyle.

The aim is to hit **80%+** to Ideal Day Lifestyle Project totals (currently stands at **73%**).

Wheel of Life (Reality Checks)

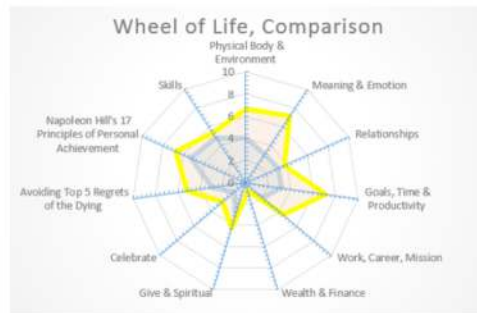

One of the things I had to do, when started working on taking a turn in life, was to perform my Reality Checks. And be very honest with myself. Wasn't easy.

Wheel of Life idea was borrowed from Tony Robbins, as learned during his Unleash the Power event, London 2015. A powerful experience.

Having thought thoroughly, through ingredients needed to include into each category, and having added few more guides, I was able to understand my current reality way clearer than ever before.

Results in the image tell a story: 1. Blue circle is first ever reality checks, performed in Oct 2016; 2. Yellow circle is the most recent (reality checks are performed every 3 months)

October 2016 (blue) - June 2017 (yellow)

Reality Check, June

Last month change: **+1%**

Emotions & Meaning

Various emotional checks and tests are undertaken on monthly basis. These include self-fulfillment, peace, happiness, human connection, self-esteem, feeling appreciated,

Emotions & Meaning, June

Last month change: **-1%**

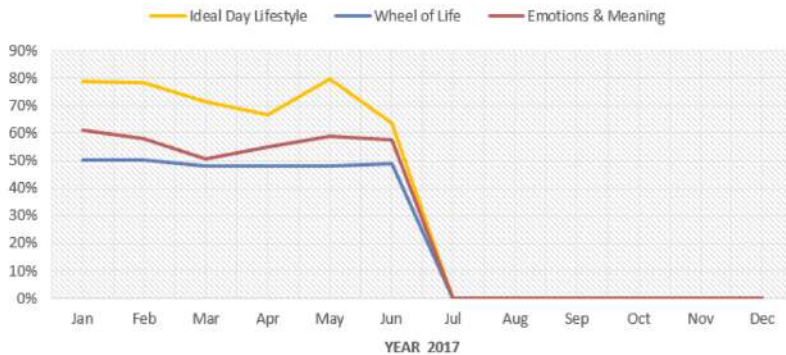

gratitude, forgiveness and several more.

Throughout experience of this journey I found that relying on just one type of test (happiness, for example), provided by one type of source (psychology website, etc.) is not always a reliable report to follow. I learned that a combination of such tests, coming from few different sources is a better option.

Takes only 30 mins a month to complete, but it adds so much more clarity to your daily life. Tells a story how your emotional state affects others areas, too. Well worth to keep a close eye on!

Ideal Day, Reality & Emotions Journey

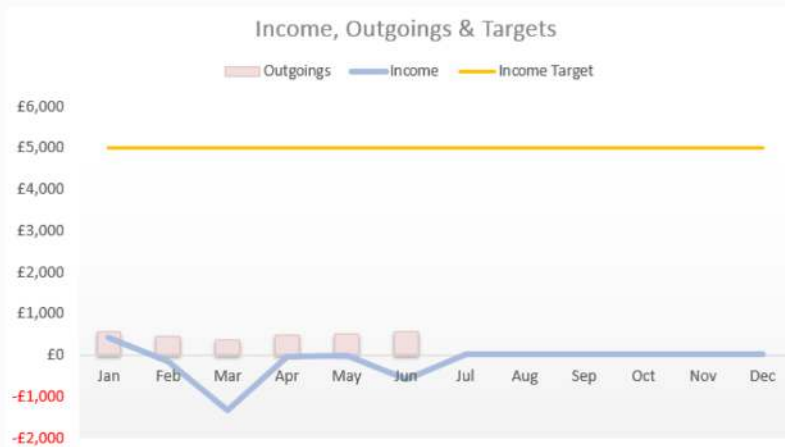

Income, Outgoings & Targets

This has been the toughest category out of them all, during this journey.

I currently rely on trading and investment strategies as my main income source, but it wasn't going well. This month Profit/Loss: **-£598**. After encountering huge losses March, I'm now **135%** away from my Year 2017 income targets (set as **£5,000**)

The charts are here to share the complete story. So far.

Too, as one of other few activities, here I also note how the financial situation does affect Ideal Day Lifestyle & the Emotional Life as well. These doesn't help to generate income, but it sure is a powerful tool to have in place. I believe, on any journey.

Next Month

Goals In Focus

18

NOTE: to save space on a page, these goals exclude those regular, ongoing activities such as daily/weekly rituals (Ritual of Live Nourishment 80%+, Morning Rituals 80%+ etc.). These activities are included in a Blueprint and will reflect in overall Ideal Day Lifestyle number. Too, not listing goals here that results are end-of-year based (Bucket List achievements, etc.) Goals listed below are only those that I'm to really focus on during the upcoming month. All goals (including some added extras) comes as part of Bucket List project.

Why & About 'Can I Fail' Project

"Starting from January 2017, I'm challenging myself to live my next 3-yrs as if my last. To find out if one can GET a lifestyle that he really wants, by working towards DESIGNING a lifestyle that he really really wants. WHILE having in mind that time is limited. 3 years. Campaign is tracked, progress & reports are made available in public." --William V Vysniauskas
